Experience the future of law, today

Transforming the legal sector through innovation

You have the vision for your law firm, but do you have the operations and capabilities to bring it to life?

The current business landscape creates a compelling reason for your law firm to rethink its operating model, achieve greater efficiencies and increase the value you deliver back to your clients. Today, your law firm faces multiple challenges, including a heightened regulatory environment and acceleration of technology advancements, which means that you must be prepared to take on the future. Advantage Consulting can help you implement effective business strategies, adopt latest technology, stay compliant and achieve your financial targets.

In 2019, disruption rippled through the legal sector forcing many law firms to redefine their paths forward. Firms were merging, acquiring, becoming more significant. What we wanted to do was expand and create a new kind of law practice that could lead the next decade. It was the support, advice and vision from Advantage Consulting that guided us on our expansion path. The consultants showed extensive experience in working with law firms on M&A engagements but, beyond that, it was their ability to look deeper that differentiated them from the others. From the beginning, Advantage Consulting experts worked with us to understand what we were trying to accomplish in order to help us shape the strategy, mechanisms and frameworks to achieve success.

Starck Uberoi Solicitors - London

A changing world requires a new approach to law

Legal Accreditations

Lexcel is designed to be a driver of competitive advantage and it is essential that your practice offers clients clear and distinctive assurance of quality. We can assist you with attaining the Lexcel accreditation and help you differentiate your services, reduce costs and improve profitability.

Business Consulting

We deliver strategy and implementation, from a business and technology view, to help you grow and expand your law practice. And in a fast-changing world, we will give you the support you need to be fully compliant, efficient, profitable and create long-term growth at your firm.

Risk & Compliance

Our consultants can help you create a competitive advantage in your practice by embracing disruption with procedures, trust and confidence. The cost of under-investment in risk and compliance is leading to an increasing number of cases of intervention by the SRA.

Lawtech & Software

The developments in lawtech present an opportunity to improve the efficiency in your firm and adapt to agile working environments of the future. Our innovative software solutions include case and practice management systems, document automation, chatbots and artificial intelligence tools.

Financial Advisory

From financial planning to business analytics, we have the experts to help you better manage your firm's finances and stay compliant. Our consultants understand the legal profession and have the expertise to advise you on staying compliant with accounts, tax and regulatory requirements.

Accountancy & Tax

We provide flexible accountancy and tax services which are focused on the legal profession. Your firm faces a variety of legal sector specific challenges so having an expert on your side can make all the difference. When you engage us, you can be sure that you're working with a team of professionals.

Insurance for Lawyers

We understand that no two law firms are the same, so your indemnity policy should be as unique as your business. We offer tailor made cover selected from a panel of top-rated providers, designed with your business in mind. Known for our innovative and bespoke insurance solutions, every one of our clients receives an onsite risk audit.

Mergers & Acquisitions

The problem with organic growth is that it is slow and on its own is rarely sufficient, especially for smaller firms. We provide a bespoke mergers and acquisitions service specifically for lawyers, typically working with both firms over a period of time addressing key issues such as compliance, logistics, finance and practice management.

Recruitment Services

Attracting and retaining top talent is vital for the success of your law firm. From identifying prospective candidates to selling your vision and securing your new lawyer at the right salary level, we're experts at making sure you recruit the right people. We consistently interact with the best lawyers, so we are at the forefront of legal recruitment.

Marketing Services

Are you looking for a new website? Or to make the most of your marketing budget? Great! We have over 200 marketing partner studios and a team of brand strategists, web developers, digital experts and designers. We bring a diverse range of people and skills together under one roof and set new standards in legal marketing.

Training Academy

Advantage Training Academy is a leading provider of high quality, affordable management training for the legal profession. Over the past ten years, we've helped thousands of lawyers to enhance their skills, increase their expertise and meet their CPD requirements. Call us to discuss your training needs.

Actionstep Software

Actionstep is a complete legal practice management system, built in the cloud, with workflow at its heart. Actionstep simplifies how you work, so you always have the headspace and time to serve your clients well. The system boasts a lot of great features including case management, accounting and document management.

In a legal sector best known for looking back, Advantage Consulting looks forward

What is it that you aim for? What are your hopes and ambitions? How do you trace the path from what you have accomplished to what you will do next?

At Advantage Consulting, we understand that the most important decisions are the ones you have yet to make. Crafting the future of your law firm in an informed way means understanding current market conditions, as well as the trends and technology that is shaping tomorrow. Our experts will help you look ahead with strength and confidence.
